SUMMARY

Undergraduate in Artificial Intelligence | Dawood University of Engineering & Technology Skilled in Python, SQL, AI/ML, and database management with remote internship experience. Passionate about contributing to innovative projects as a DBA or AI/ML Intern through technical expertise and a proactive mindset.

WORK EXPERIENCE

Data Visualization Associate Early Remote Internship

september 2025-october

Completed a remote Data Visualization Associate internship with Saint Louis University & Excelerate, applying Python and visual analytics to real-world datasets.

DELOITTE AUSTRALIA DATA ANALYTICS JOB SIMULATION ON FORAGE - SEPTEMBER 2025

Completed a Deloitte job simulation involving data analysis and forensic technology * Created a data dashboard using Tableau * Used Excel to classify data and draw business conclusions

PROJECTS

- Developed and deployed a Book Recommender System (popularity + collaborative filtering) on Hugging Face Spaces using Python, pandas, scikit-learn
<https://github.com/javeria843/Book-Recommender-System>
 - AI/ML Regression Toolkit Implemented various regression models to predict trends and visualize outputs using Python libraries
https://github.com/javeria843/Maching_Learning
 - AI Resume Matcher & Job Advisor | Developed an AI-powered tool using Python, Streamlit, NLP, SentenceTransformers, Gemini API, and Spacy to match resumes with job descriptions, recommend skills, and suggest suitable career roles.
https://github.com/javeria843/Resume_Matcher
Live Link: <https://projectfolder-tjxpoeqh57wwfgrmz6defd.streamlit.app/>
 - Built an explainable machine learning-based medical triage system to predict stroke risk from EMR data with calibrated probabilities and SHAP interpretability.
<https://github.com/javeria843/Complex-Computing-Activity-Project>
 - Smart Surveillance & Crowd Analytics System – Real-time computer vision tool using Python, OpenCV, YOLOv8 to detect, track, and analyze crowd density with alerts, heatmaps, and performance metrics.
<https://github.com/javeria843/Surveillance-Crowd-Analytics-System>
 - AI PDF Chatbot | Developed and deployed a RAG-based chatbot using Python, Streamlit, Gemini LLM, and PyMuPDF to extract PDF content and generate context-aware answers through NLP-based retrieval.

-

EDUCATION

DAWOOD UNIVERSITY OF ENGINEERING AND TECHNOLOGY:

Bachelor's in Artificial Intelligence (Undergraduate Student) Relevant Coursework: Machine Learning, Database Systems, Data Structures, Algorithms

ST LAWRENCE GOVT GIRLS DEGREE COLLEGE

Intermediate in COMPUTER SCEINCE(2022- 2023)

SKILLS:

SQL & Database Management, Data Analysis & Visualization, Artificial Intelligence & Machine Learning, Programming for AI (Python, OOP), Natural Language Processing (NLP), Deep Learning, Web Frameworks: Flask, Streamlit, FastAPI, GenAI Applications & Tools

ADDITIONAL INFORMATION

Certifications & Short Courses

- **Generative AI Developer Certificate (NCEAC–HEC Cohort 3, May 2026)**
- **AWS AI PRACTITIONER CHALLENGE COURSE**
- **Google (Foundations of data Sceince)**

Additional Information

- Soft Skills: Team Collaboration, Problem-Solving, Time Management
- Other Experience: Teaching, Sales & Marketing
- Technical Writing: Documented workflows and project reports during internship
- Volunteering: Participated in STEAM Festival

INTERESTS:

Exploring AI-driven solutions for real-world problems. Database optimization and cloud-based systems. Collaborative coding and hackathons.

LANGUAGES:

English

Urdu
